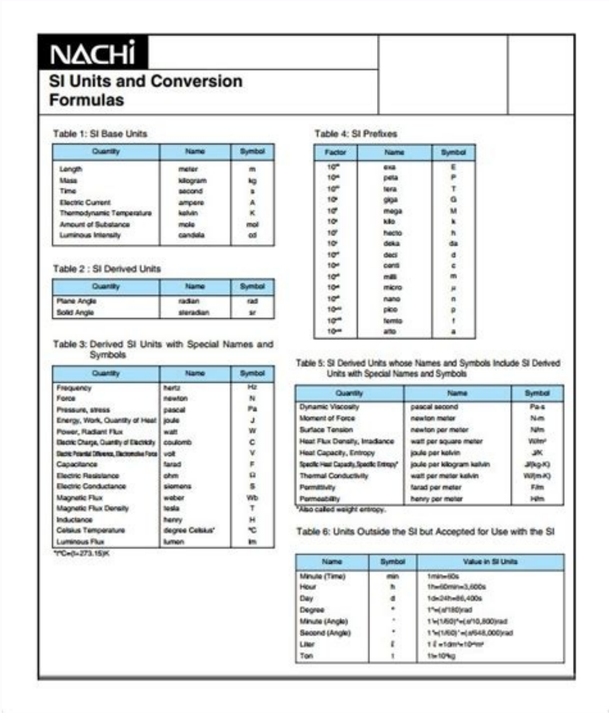
Converting length worksheet ks2 pdf printable template free



NACHi

SI Units and Conversion Formulas

Table 1: SI Base Units

Quantity	Name	Symbol
Length	meter	m
Mass	kilogram	kg
Time	second	s
Electric Current	ampere	A
Thermodynamic Temperature	kelvin	K
Amount of Substance	mole	mol
Luminous Intensity	candela	cd

Table 2 : SI Derived Units

Quantity	Name	Symbol
Plane Angle	radian	rad
Solid Angle	steradian	sr

Table 3: Derived SI Units with Special Names and Symbols

Quantity	Name	Symbol
Frequency	hertz	Hz
Force	newton	N
Pressure, stress	pascal	Pa
Energy, Work, Quantity of Heat	joule	J
Power, Radiant Flux	watt	W
Electric Charge, Quantity of Electricity	coulomb	C
Electric Potential Difference, Electromotive Force	volt	V
Capacitance	farad	F
Electric Resistance	ohm	Ω
Electric Conductance	siemens	S
Magnetic Flux	weber	Wb
Magnetic Flux Density	tesla	T
Inductance	henry	H
Celsius Temperature	degree Celsius*	°C
Luminous Flux	lumen	lm

*°C=[t]-273.15]K

Table 4: SI Prefixes

Factor	Name	Symbol
10^{18}	exa	E
10^{15}	peta	P
10^{12}	tera	T
10^{9}	giga	G
10^{6}	mega	M
10^{3}	kilo	k
10^{2}	hecto	h
10^{1}	deka	da
10^{-1}	deci	d
10^{-2}	centi	c
10^{-3}	milli	m
10^{-6}	micro	μ
10^{-9}	nano	n
10^{-12}	pico	p
10^{-15}	femto	f
10^{-18}	atto	a

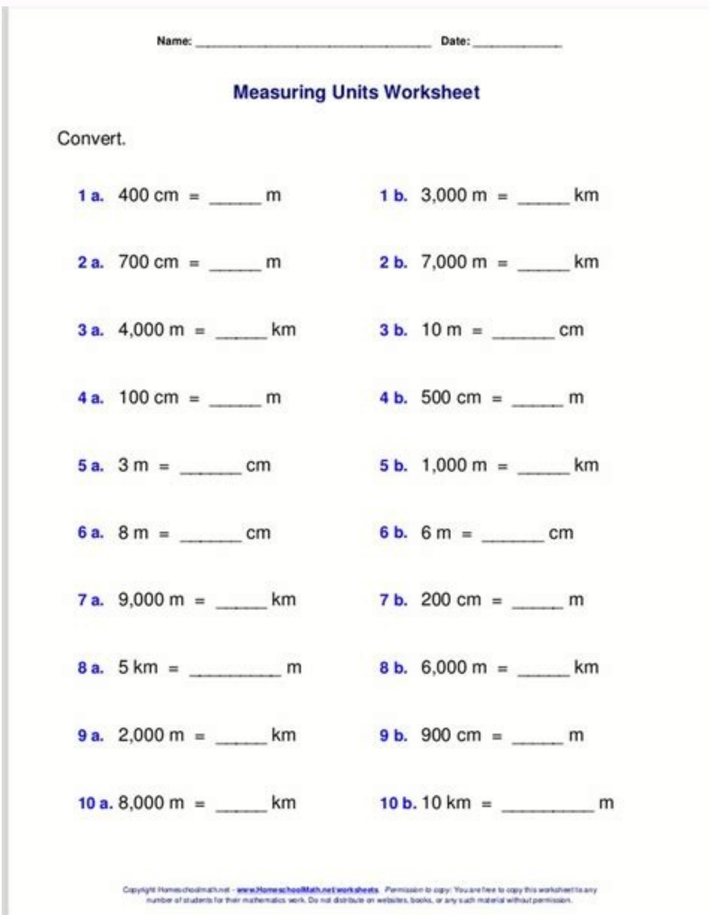
Table 5: SI Derived Units whose Names and Symbols Include SI Derived Units with Special Names and Symbols

Quantity	Name	Symbol
Dynamic Viscosity	pascal second	Pa·s
Moment of Force	newton meter	N·m
Surface Tension	newton per meter	N/m
Heat Flux Density, Irradiance	watt per square meter	W/m²
Heat Capacity, Entropy	joule per kelvin	J/K
Specific Heat Capacity,Specific Entropy*	joule per kilogram kelvin	J/(kg·K)
Thermal Conductivity	watt per meter kelvin	W/(m·K)
Permittivity	farad per meter	F/m
Permeability	henry per meter	H/m

*Also called weight entropy.

Table 6: Units Outside the SI but Accepted for Use with the SI

Name	Symbol	Value in SI Units
Minute (Time)	min	1min=60s
Hour	h	1h=60min=3,600s
Day	d	1d=24h=86,400s
Degree	°	1°=(π/180)rad
Minute (Angle)	'	1'=(1/60)°=(π/10,800)rad
Second (Angle)	"	1"=(1/60)'=(π/648,000)rad
Liter	l	1 l =1dm³=10⁻³m³
Ton	t	1t=10³kg



Name: _____ Date: _____

Measuring Units Worksheet

Convert.

1 a. 400 cm = _____ m **1 b.** 3,000 m = _____ km

2 a. 700 cm = _____ m **2 b.** 7,000 m = _____ km

3 a. 4,000 m = _____ km **3 b.** 10 m = _____ cm

4 a. 100 cm = _____ m **4 b.** 500 cm = _____ m

5 a. 3 m = _____ cm **5 b.** 1,000 m = _____ km

6 a. 8 m = _____ cm **6 b.** 6 m = _____ cm

7 a. 9,000 m = _____ km **7 b.** 200 cm = _____ m

8 a. 5 km = _____ m **8 b.** 6,000 m = _____ km

9 a. 2,000 m = _____ km **9 b.** 900 cm = _____ m

10 a. 8,000 m = _____ km **10 b.** 10 km = _____ m

Name : _____ Date : _____

U.S. Customary Unit Conversion Chart

Measuring Length

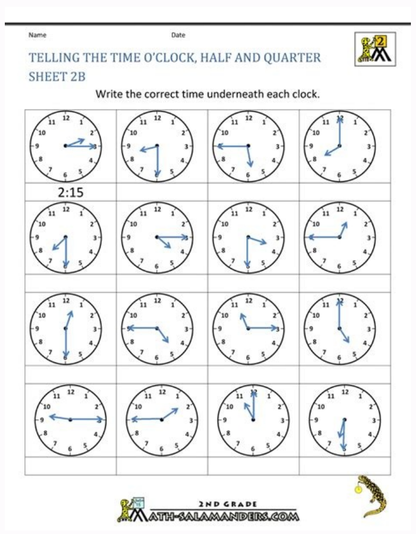
12 inches = 1 foot
36 inches = 1 yard
3 feet = 1 yard
5280 feet = 1 mile
1760 yards = 1 mile

Measuring Weight

16 ounces = 1 pound
2000 pounds = 1 ton

Measuring Capacity

3 teaspoons = 1 tablespoon
2 tablespoons = 1 fluid ounce
8 fluidounces = 1 cup
2 cups = 1 pint
2 pints = 1 quart
4 quarts = 1 gallon



Name Date

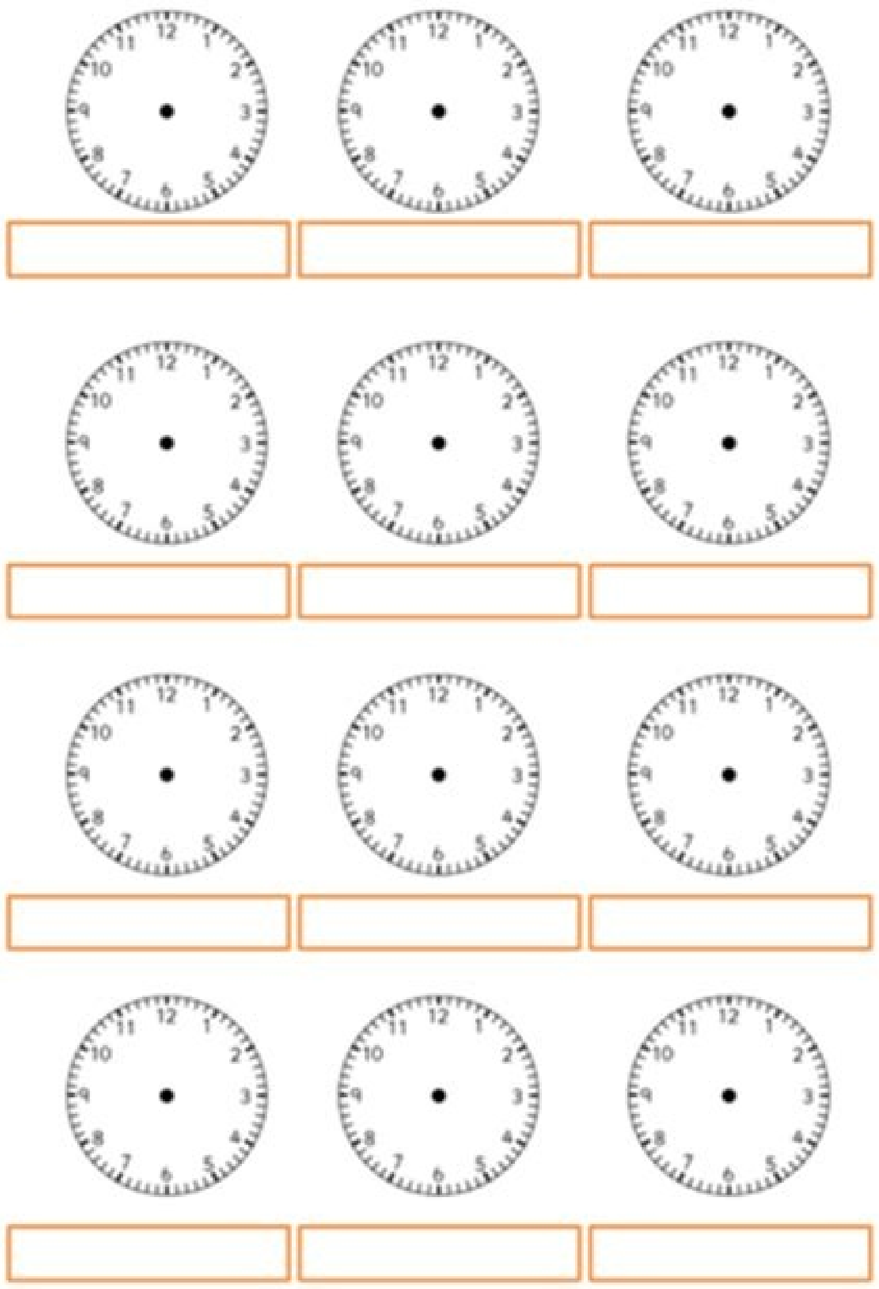
TELLING THE TIME O'CLOCK, HALF AND QUARTER
SHEET 2B

Write the correct time underneath each clock.

2:15

2ND GRADE
MATH-SALAMANDERS.COM

LO: I can read and record the time.



The scales include finding the length, weight or liquid capacity. The sheets have been carefully graded with the easiest sheets first. Here is a graphic preview for all of the measurement worksheets. Temperature Conversion Tables Worksheets These measurement worksheets are great handouts for students containing temperature conversion factors. Click the image to be taken to that Measurement Worksheet. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. The sheets have been designed for children working from 3rd grade to 5th grade. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. On this webpage, you will find a range of measurement worksheets to help your child learn to convert between different metric units of measurement. Using the sheets in this section will help your child to: tell the time to the nearest 5 minutes; become familiar with both digital and analogue times; add and subtract time intervals; use the words 'past' and 'to' to describe the time correctly. Reading a Tape Measure Worksheets These measurement worksheets are great for practicing reading a Tape Measure. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Converting Feet & Inches Worksheets These measurement worksheets are great for practicing converting feet and inches. Reading a Decimal Ruler Worksheets These measurement worksheets are great for practicing reading a Decimal Ruler. English & Metric Conversion Quiz Worksheets This measurement worksheets are great for practicing converting between English and Metric units. How to Print or Save these sheets Need help with printing or saving? Subtracting Irregular Units Worksheets This measurement worksheet generator will produce problems to subtract irregular units of measurement. These sheets are aimed at 3rd graders. You can print a copy of your results from this page, either as a pdf or as a paper copy. These measurement worksheets will produce a table of equivalent liquid measuring units for the student to work with. Using these sheets will help your child understand how to: read scales in both the standard and metric systems; read a scale going up in a range of fractions: halves, quarters and eighths; read a scale going up in tenths, fives, tens, fifties, and hundreds. Click here for a Detailed Description of all the Measurement Worksheets. Using these metric conversion worksheets will help your child to: convert between millimeters, centimeters, meters and kilometers; convert between grams and kilograms; convert between milliliters and liters. As well as converting between different metric units, the sheets on this page will also help children to practice multiplying by 10, 100 or 1000 in meaningful context. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. These printable math sheets involve reading scales in both the standard and metric systems. You may select to leave some blank or completely fill out the table. Measuring Out Lines in Inches or Centimeters Worksheets These measurement worksheets are great for practicing measuring out line segments in inches or centimeters. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. These measurement worksheets will produce eight measuring problems per worksheet. The measurement worksheet will produce sixteen conversion problems per worksheet. Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. Here is our selection of measurement worksheets for 3rd graders. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. The measurement worksheet will produce eight measuring problems per worksheet. Within each section, the sheets are carefully graded with the easiest sheets first. Using these sheets will help children to consolidate their fractions and place value learning. These measurement worksheets will produce twenty questions on different liquid measuring units per worksheet. Liquid Measure Conversion Quiz Worksheets These measurement worksheets are great for practicing converting different liquid measure units. Adding Irregular Units Worksheets This measurement worksheet generator will produce problems to add irregular units of measurement. You may vary the scales for the problems. Reading a Graduated Cylinder Worksheets These measurement worksheets are great for practicing reading graduated cylinders to measure liquid volume. These measurement worksheets will produce fifteen problems per worksheet. Reading a Thermometer Worksheets These measurement worksheets are great for practicing reading a Thermometer to measure temperatures. The problems may include Feet & Inches, Pounds & Ounces, Hours & Minutes, Minutes & Seconds, and Yard & Feet. You may select different types of cylinders for the problems. These measurement worksheets will use 1/2's, 1/4's, 1/8's. English & Metric Conversion Tables Worksheets These measurement worksheets are a great handout for the student containing a list of length, distance, area, volume, weight and speed conversions between English and Metric Units. These measurement worksheets will produce twenty conversion problems per worksheet. Using these sheets will help children to consolidate their counting and place value as well as learning to read and estimate using a simple scale. General Conversion Tables Worksheets This measurement worksheet is a great handout for students containing general conversion factors for length, weight, area, and speed. This worksheet will challenge your third graders with problems on area, perimeter, measurement, and elapsed time problems. These measurement worksheets will produce eight Engineering Measurements problems per worksheet. Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. 4th Grade Measurement Worksheets This section contains our 3rd grade time worksheets to help children tell the time in multiples of 5 minutes. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. These measurement worksheets will produce ten measuring problems per worksheet. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. Converting Customary Units Worksheets Temperature Conversion Worksheets Take a look at some more of our worksheets similar to these. Reading Architectural Measurements Worksheets These measurement worksheets are great for practicing reading Architectural Measurements. Reading a Metric Ruler Worksheets These measurement worksheets are great for practicing reading a Metric Ruler. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. 3rd Grade Measurement Worksheets Here is our selection of measurement worksheets for 4th graders. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Need to create your own long or short multiplication worksheets quickly and easily? You then select if you want to measure centimeters or millimeters, and finally you select the increment to be used in the measuring problems. These measurement worksheets will produce eight Tape Measure problems per worksheet. Liquid Measure Conversion Table Worksheets These measurement worksheets are great for learning the different liquid measure units. Measurement Learning CheckMeasurement Learning CheckThis resource will help assess your students' mastery of concepts surrounding measurement and time. Metric Conversion Quiz Worksheets This measurement worksheets are great for practicing converting between different Metric units. This will take you to a new webpage where your results will be shown. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Sheets 4 and 5 are aimed at a 5th grade level and involve converting metric units to and from decimals. Here you will find our range of sheets to support your child in learning to convert between metric units. These measurement worksheets will produce eight Architectural Measurement problems per worksheet. These measurement worksheets will produce nine problems per worksheet. You may vary the scales for the problems and choose between Fahrenheit or Celcius. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Reading Engineering Measurements Worksheets These measurement worksheets are great for practicing reading Engineering Measurements. They will produce a table of all the fractions from 1/64th to 63/64th of an inch. You may choose to display the ruler or leave it off for the problems. Sheets 3 and 4 are aimed at a 5th grade level and involve converting metric units to and from decimals. Measuring In Centimeters or Millimeters Worksheets These measurement worksheets are great for practicing measuring line segments in centimeters. These measurement worksheets will produce eight Metric Ruler problems per worksheet. These measurement worksheets will produce eight Standard Measurement problems per worksheet. 1 cm = 10 mm 1 centimeter = 10 millimeters 1 m = 100 cm 1 meter = 100 centimeters 1 km = 1000 m 1 kilometer = 1000 meters KEY FACTS - WEIGHT 1 kg = 1000 g 1 kilogram = 1000 grams KEY FACTS - VOLUME 1 L = 1000 mL 1 liter = 1000 milliliters Sheets 1 to 3 are aimed at a 3rd to 4th Grade level and use whole numbers only. These measurement worksheets are a great resource for children in Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Our quizzes have been created using Google Forms. Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? 1/16's and there is an option to select 1/32's and 1/64's. convert a range of whole numbers and decimals Want to test yourself to see how well you have understood this skill?. On this page we have a selection of worksheets for converting between yards, feet and inches. We also collect the results from the quizzes which we use to help us to develop our resources and give us insight into future resources to create. Our measurement worksheets are free to download, easy to use, and very flexible. These measurement worksheets will produce ten problems per worksheet. Decimal Equivalents of Fractions for an Inch Worksheets These measurement worksheets are great handouts for student learning about fractions and the decimal equivalents for an inch. Measuring In Inches Worksheets These measurement worksheets are great for practicing measuring line segments in inches. Fahrenheit & Celsius Conversion Worksheets These measurement worksheets are great for practicing converting between Fahrenheit and Celsius. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. Try our NEW Length quiz (cm, m and km) or All Metric units quiz. Telling Time to 5 Minutes Worksheets Our quizzes have been created using Google Forms. Reading a Barometer Worksheets These measurement worksheets are great practicing reading a Barometer to measure barometric change. Welcome to our Metric Conversion Worksheets page. Reading a Protractor Worksheets These measurement worksheets are great for practicing reading and using a protractor to measure angles. Sheets 1 and 2 are aimed at a 3rd to 4th Grade level and use whole numbers only. Sheets 1 to 3 are aimed at a 3rd to 4th Grade level and use whole numbers only. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. We do not collect any personal data from our quizzes, except in the 'First Name' and 'Group/Class' fields which are both optional and only used for teachers to identify students within their educational setting. Reading a Rain Gauge Worksheets These measurement worksheets are great for practicing reading a Rain Gauge to measure rain fall. General Conversion Quiz Worksheets This Measurement Worksheet is great for practicing converting length, weight, area, and speed. There are also sheets for converting betweeen gallons, quarts, pints and cups. We also have a selection of converting worksheets for customary units. For more information on the information we collect, please take a look at our Privacy Policy We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. These measurement worksheets will produce two problems per worksheet. These measurement worksheets will produce twelve problems per worksheet. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. You can select different oblects and reading scales to practice measuring and reading real world examples.These measurement worksheets are randomly created and will never repeat so you have an endless supply of quality measurement worksheets to use in the classroom or at home. Reading Standard Measurements Worksheets These measurement worksheets are great for practicing reading Standard Measurements. These printable math sheets involve reading scales going up in halves, ones, fives, tens, fifties and hundreds to find the length, weight or liquid capacity. You may select inches or centimeters for the problems. These measurement worksheets will produce eight Decimal Ruler problems per worksheet. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. These measurement worksheets will produce one, two, four, or six protractors per worksheet. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Producing Protractor Images Worksheets These measurement worksheets are great for handouts, using on a smart board, or overhead projector where a protractor image is needed.
